

3/24/2015

My daughter Savannah Thao has been attending Eastern Heights Elementary for 3 years now, its a great School and love to keep her there for a while. I drop and pick her up daily and the ~~area~~ Cross Section on Ruth & Margaret is very dangerous with students crossing and parents dropping off/picking up student. I approve adding Signal lights on Ruth & Margaret.

I hope the city can see the importance of this project and approve the request.

I have witness many near missed car accidents and students getting hit. This is really needed. as a parent I would really hate to send my daughter to a school that is unsafe.

Thank You

Julissa Young

RE: Eastern Heights Elementary needs your help!

To: jill.charles@spps.org,

If an is even so dangerous to drivers themselves, I wonder what pedestrians especially students could face. All the time I see kids are the ones waving flags on this intersection to signal cars to stop. I think this is not their duty to do so. The last things kids, students, parents, and pedestrians should worry about is how to cross an intersection. Thus, the installation of traffic signals on this intersection is an absolute necessity without delay. The city shouldn't wait until a grave tragedy happens before acting. We know as we can know anything that if nothing is done to salvage this situation, one day it shall happen. Thanks for bringing this longstanding safety issue up.

Best Regards, Yuvn.
